## **TPM Club India**

### **Planned Maintenance Seminar**

11-12 December 2008; Park Hotel; Kolkata

TPM Club India endeavors to promote JIPM - TPM in India. Many Programmes have been organised on this front for the promotion of TPM.

**Mr Kinjiro Nakano**, Executive Vice President of JIPM Solutions Ltd has published a book on Planned Maintenance. This book gives a comprehensive approach for Industries to achieve Zero Breakdown.

CII and TPM Club India together is organizing a series of seminars in different parts of India to spread this concept of achieving Zero Breakdowns through a unique approach.

In order to improve the availability of machines / equipment for production and achieve qualitative production, the machines/equipments are to be kept in “**as desired condition**”. Maintenance division with the help of operation division can ensure this condition.

The main objective of maintenance division is to ensure the reliability of machines / equipments and maintainability of the same.

The seminar is designed to help industries for achieving the above objective detailing out the approach and methodology. The following aspects, which improve the functions of maintenance division, will be focused in this seminar :

- Equipment maintenance control system
- Periodic maintenance work system
- Predictive maintenance work system
- Information management system
- Spare parts control system
- Lubrication and oil supply control system
- Maintenance cost control system
- Reliability Centered Maintenance and case study

#### **Coverage and Contents :**

- What is TPM
- Equipment Maintenance
- How to Develop Planned Maintenance
- Seven Step Procedure for Planned Maintenance
- Other Planned Maintenance Activities
- MP Activity (Equipment Initial Control)
- Reliability Centered Maintenance

:2:

**Faculty :****Mr Samir Adhikari, Counsellor TPM, TPM Club India, Confederation of Indian Industry**

Mr Adhikari is working as counsellor with CII TPM Club India and is providing Training and consultancy services on Total Productive Maintenance. He is a trained TPM Instructor from JIPM, Tokyo and has been working with companies assisting them in the areas of Total Productive Maintenance.

He was the main coordinator for implementing TPM at Vikram Cement, which was the first Indian company to receive the coveted Award for TPM Excellence from Japan Institute of Plant Maintenance.

He has very rich experience in implementing TPM in Process Industry and has worked with some international companies outside India as well.

He is an Engineer from IIT-Kharagpur and has completed ME in Control System.

Apart from TPM, he also has wide exposure on ISO 9000, ISO 14000, OHSAS 1800, Juran's Continuous Quality Improvement Methodology, Six sigma and TOC (Theory of Constraints).
