

MASTER CLASS ON TOTAL PRODUCTIVE MAINTENANCE

Lecture by JIPM TPM Award Winning Companies

22nd May 2017; 1000 – 1300 hrs, CII Gurgaon office

For a successful business, it is essential to achieve excellence in all spheres and continuously look for opportunities to upgrade and improve. The Manufacturing facilities are the backbone of the business and effectiveness here can provide the much-required edge to the business. Having achievements through “achieve & sustain zero accident, zero breakdown and zero defect in all areas.”

Lecture was given by Mr Ganesh Upadhyay, Hero Motocorp Ltd, Mr Omprakash, Indian Oil Corporation Ltd and Mr Harish Kumar Sharma, Sona Koyo Steering Systems Ltd. The speakers touched upon their journey towards achieving the JIPM TPM Award. By practicing TPM, how their PQCDSM has helped their organisation to achieve good result in cutting cost, increase production, achieve zero defect, improved quality, timely deliverables. Safety and morale of the employees also increased.

Key Learnings:

To achieve & sustain zero accident, zero breakdown and zero defect in all areas. To improve the reliability and reduce the Product cost. To produce globally accepted products. To minimize pollution & conserve natural resources to protect the environment. To achieve high level of excellence in work in terms of Change in Attitude, System Orientation, Analytical Approach & Flexibility. TPM provides a holistic, structured and quantifiable methodology for Deeper and Wider continuous improvement in an integrated way. Indian Oil, RHQ, New Delhi is a pure office setup and have implemented TPM in their office in a completely different form. This was a different learning.
